

Excellent strength, Outstanding grip

PG-900 Fish Scale Powderfree Nitrile Gloves

Code: 12711-4

Sizes: S-XL

Developed specifically for work in oily or greasy environments, the new PG-900 glove utilises a "fish scale" pattern in its design which optimises surface performance and ensures exceptional grip at all times.

Made from a tough nitrile formulation, the PG-900 also boasts excellent tear and puncture resistance. Other features include an extended and beaded cuff that reduces particle transfer and prevents liquid rollback.

Chemical Resistant

Adheres to European Standard EN374, providing an effective barrier against oils and chemicals.

Powder free

Minimises particulate contamination.

Extended Cuff

Reduces particle transfer from user.

Beaded Cuff

Reduces particle transfer from user.
