The battery fitted to this lamp is considered to be a consumable item and its ability to accept a charge will reduce over time. We will provide warranty against mechanical and electrical defect for a period of one year - this does not cover fair wear and tear. If the battery is not properly charged before first use, or regularly conditioned, its capacity will diminish. Under these circumstances we will not replace the battery regardless of whether it is less than one year old.

Note: The lithium battery does not suffer from memory effect and once fully charged may be stored for up to six months without another charge.

4. OPERATION

- 4.1. Connect the USB lead to the socket on the rear of the lamp and into a charging socket. Turn on power supply, the charging LED on the lamp will light RED to show that charging has commenced.
- 4.2. When the battery has fully charged the LED will turn GREEN.
- 4.3. Direct the lens away from your eyes before switching on.

- 4.4. Toggle the lamp between the end light and side light using the ON/OFF switch.
- 4.5. The lamp may be suspended by the hooks or attached to any ferrous surface by using the magnets.
- 4.6. When the light is hanging from the hook it can be rotated through 360° for more precise positioning.
- 4.7. Separate the top and bottom sections by pulling apart. When attached to a ferrous surface, using the base magnet, the lamp can rotate to shine in any direction.

ENVIRONMENT PROTECTION

Recycle unwanted materials instead of disposing of them as waste. All tools, accessories and packaging should be sorted, taken to a recycling centre and disposed of in a manner which is compatible with the environment. When the product becomes completely unserviceable and requires disposal, drain any fluids (if applicable) into approved containers and dispose of the product and fluids according to local regulations.

WEEE REGULATIONS

Dispose of this product at the end of its working life in compliance with the EU Directive on Waste Electrical and Electronic Equipment (WEEE). When the product is no longer required, it must be disposed of in an environmentally protective way. Contact your local solid waste authority for recycling information.

BATTERY REMOVAL

Remove the 6 screws on the back of the lamp. Remove the back casing and disconnect the wiring from the circuit board.

Remove the battery. Dispose of according to local government guidelines.
