SPECIFICATION SHEET

CLICK MEDICAL G5 DEFIBRILLATOR TRAINING UNIT WITH CPR

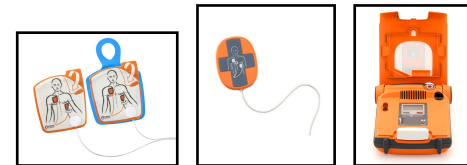

ZOLL[®]

G5 Training unit with CPR device

Supplied with a wireless remote control, the Cardiac Science Powerheart G5 defibrillator trainer kit allows the instructor to change training scenarios throughout the course, ensuring that trainees receive a thorough hands-on experience. The Powerheart G5 trainer kit simulates a sudden cardiac arrest and demonstrates how the actual G5 defibrillator would operate in an emergency.

- Helps trainees to familiarise themselves with the actual Cardiac Science Powerheart G5
- Simulates a sudden cardiac arrest and how the defibrillator would operate
- Operates different training scenarios
- Provides hands-on experience
- Audible voice instructions and metronome help guide the trainee throughout defibrillation shock and CPR practice
- Battery powered - batteries NOT included
- Wireless remote control allows the instructor to manage the training course
- Supplied with adult training pads with CPR device
- Can be used for infant/child training when paediatric pads are fitted (sold separately)

Please Note: This is a training unit only and it is not suitable for administering treatment.
