

TOWELRADS BERKSHIRE RANGE

Our aluminium radiators conduct up to 5 times more than steel, circulating heat more efficiently. Designed to be dimensionally smaller than traditional steel heat sources, they supply the same heat output at a lower cost.

A modern take on the traditional radiator and made from recycled materials, these radiators are both lightweight and slim line, making installation safer and easier.

For the full and extensive range of radiators, elements and accessories please visit our website at www.towelrads.com.
