

TECHNICAL DATA SHEET

APOLLO® CYLINDER TROLLEYS WITH SOLID RUBBER WHEELS

DAY
DELIVERY

DESCRIPTION

Our Apollo® Cylinder Trolleys are designed to move and store heavy cylinders (up to 300kg & 400kg) in an easily manoeuvrable way, operating with solid rubber 2 x 350mm puncture proof wheels and an ergonomically designed lip/handle. Some models are also fitted with supporting castors for extra stability. Manufactured in strong tubular steel, this unit is designed to withstand bumps and knocks, protecting the cylinder inside.

FEATURES

- ✔ Solid toe plate to hold the cylinder
- ✔ Manufactured in a resistant steel, finished in dark grey
- ✔ Adjustable chain to retain bottles in transit
- ✔ Maximum load capacity of 300 or 400kg (refer to table below)
- ✔ Complete with 2 x 350mm solid rubber wheels and 2 x support castors on some models (refer to table below)
